

Noble Licensure Programs (NLP)

Noble's Licensure Programs (NLP) provide flexible, cost-effective options for our teachers to obtain an Illinois teaching license or subject endorsement while teaching at Noble.

For teachers interested in enrolling in a licensure or subject endorsement program that begins on or after July 1, 2021, Noble offers the following benefits:

- **75% TUITION COVERAGE** for Noble-sponsored Licensure / Masters of Arts in Teaching programs
- **75% TUITION COVERAGE** for subject endorsement programs
- Reimbursement for licensure fees (e.g. content test, application fees, and edTPA exam)

For previously licensed teachers interested in reinstating a lapsed Illinois license or transferring an out of state license, we offer:

- **\$500** for licensure reinstatement or transfer fees

PLEASE NOTE: In addition to the time enrolled in the respective program, teachers commit to teach in a Noble classroom for a minimum of one year beyond the completion of their program. Participants who do not complete the commitment are required to repay Noble the tuition in full.

Eligibility: Current or new Noble educators who intend to teach full time starting in the 2021-22 school year.

Benefits: Enrolling in a licensure or endorsement granting program is an investment in your long-term career as a teacher. We have selected partner programs that understand the Noble staff experience; these partners have designed a flexible, blended, high-quality curriculum applicable to teachers who are already getting results in the classroom, but strive to be even better.
