Diverse Leaders Fellowship

Noble Network of Charter Schools

2021 - 2022
OVERVIEW

We build diverse teams because they perform better and get the best results for our students. We believe staff at all levels of the organization should reflect our students and communities. We bring others in and make people from all backgrounds feel included in all spaces to create a culture of value and belonging. We share ideas, input, and perspectives, and we seek diverse voices and bring in traditionally excluded individuals and perspectives to arrive at the best decisions. We actively seek understanding to avoid assumptions and bias in decision-making. We examine ourselves to ensure that our practices and beliefs lead to equitable outcomes for all.

The Diverse Leaders Fellowship (DLF) is designed to identify Noble’s emerging intersectional leaders of color, invest in their development, and strengthen the educational leadership pipeline within Noble, Chicago, and beyond. This pathway will provide a space of connection, visibility, learning, and authenticity to increase the greater impact of Noble’s next generation of leaders. Participants can expect to participate in a cohort experience providing supplemental professional development, cohort community building, networking opportunities, and one-on-one mentoring.

Beginning in 2018, the Diverse Leaders Fellowship stands as Noble’s longest running developmental leadership pathway. The Diverse Leaders Fellowship programming is also designed to avoid overlap with additional Noble offerings, such as The Management Accelerator, Distinguished Teacher Pathway, etc. DLF participants are encouraged and welcome to apply to multiple pathway programs as their interests and schedules allow.
OBJECTIVES

The Diverse Leaders Fellowship is built to create participant opportunities based on the DLF Core Values:

- **Connection** - The work of education is soul work. The gravity of being a person of color responsible for the learning within communities of color carries additional weight. Therefore, this soul work requires community. We hope to build community within the cohort (intra-cohort), across cohorts (inter-cohort), within greater Noble, and across the Chicago educational landscape.

- **Visibility** - You can't be what you can't see. We champion one another while supporting one another's professional and personal growth. Once we've gained the skills and developed our self-awareness, we begin the process of self-advocacy. We see a brighter light shined on our career goals and increase our understanding of careers at Noble and beyond.

- **Learning** - We do the best we can until we know better. Once we know better, we do better. We look to expand our professional toolkit through skill and knowledge building sessions. We learn from the perspectives of those around us including our cohort and our mentors. We access supplemental materials to learn even more about ourselves, our strengths, our areas of growth, and our progress.

- **Authenticity** - Just BE. We build community for one another that assumes welcome and provides welcome. We see our time together as a lift and not a burden. We see the space as sacred, shared, and supportive. We are allowed to just BE.
