Medical Insurance | BlueCross BlueShield

Health Maintenance Organization (HMO)

The HMO gives you access to certain doctors and hospitals, but restricts services to in-network providers only. Your care is managed by a Primary Care Physician (PCP) chosen at the time of enrollment. If you require a specialist, outpatient procedure, or hospitalization, your registered PCP must refer you. There are no out-of-network benefits.

Preferred Provider Organization (PPO)

A PPO plan offers the freedom to receive care from any in- or out-of-network doctor, specialist or hospital without a referral. You have a deductible to meet and once the deductible is met, coinsurance (or the cost share between you and the carrier) kicks in. The types of medical services that accumulate towards your deductible are inpatient hospital stays, outpatient surgeries, labs (blood work) and x-rays (MRIs, PET scans, CT scans, etc.). If you go to the doctor, see a specialist, utilize the ER or take a prescription drug, you'll pay a copay for those specific services. Copays do not accumulate towards your deductible but they do accumulate towards your overall out-of-pocket maximum.

High Deductible Health Plan (HDHP) with Health Savings Account (HSA)

This medical plan option is comprised of two components (1) a High Deductible Health Plan (HDHP) and (2) a tax-exempt savings account called a Health Savings Account (HSA).

The HDHP is a high deductible PPO plan that provides health care benefits after the deductible has been met. All medical services, with the exception of preventive care, are paid for by you at 100%, less carrier discounts, prior to meeting your entire annual deductible. This includes routine office visits, procedures, lab work, prescription drugs, etc.

The HSA is a bank account paired with your HDHP allowing you to set aside money on a tax-free basis to pay your out-of-pocket qualified medical, dental, and vision expenses throughout the year or in the future. You own the money in your HSA account and it is yours to keep – even when you change plans or retire. The funds roll over from year to year to be used when you really need them. **At the beginning of each calendar year Noble will contribute into your HSA to help you pay for qualified medical expenses that may come up. If you're enrolled in the High Deductible PPO Plan A as employee only, you'll receive \$250 and employee plus one or more dependents will receive \$500. If you're enrolled in the High Deductible PPO Plan B as employee only, you'll receive \$500 and employee plus one or more dependents will receive \$1,000.**

Health Savings Account

High Deductible Health Plan (HDHP) with HSA

The HDHP is a high deductible PPO plan that provides health care benefits after the deductible has been met. All medical services, with the exception of preventive care, are paid for by you at 100%, less carrier discounts, prior to meeting your entire annual deductible. This includes routine office visits, procedures, lab work, prescription drugs, etc. Although you have the flexibility to see any doctor or visit any hospital of your choice, you will pay significantly less money out of your pocket if you use a doctor or hospital that is in the network. Preventive care services are covered at 100% as long as your physician codes your visit as preventive and services fall under the allowable preventive services guidelines (www.healthcare.gov/coverage/preventive-care-benefits).

See below for example of what doctors visit would look like on a HDHP

The HSA is a bank account paired with your HDHP allowing you to set aside money on a tax-free basis to pay your out-of-pocket qualified medical, dental, and vision expenses throughout the year or in the future. You own the money in your HSA account and it is yours to keep – even when you change plans or retire. The funds roll over from year to year to be used when you really need them.

You're eligible for a health savings account if:

- You are covered by a qualified high deductible health plan (HDHP)
- You are not covered by any other medical coverage that is not considered a qualified HDHP
- You are not enrolled in Medicare (Part A included)
- You are not claimed as a dependent on someone's tax return
- You are not enrolled in a Medical Flexible Spending Account (your own or your spouse's)

Paying the true cost of your medical services, less carrier discounts, until your deductible has been met will feel a bit different than other medical plans you may have been enrolled in previously.

Flexible Spending Account (FSA) | Further

Flexible Spending Accounts (FSA) allow you to save money on a pre-tax basis to pay for qualified medical expenses and/or dependent care expenses you may incur throughout the year. The money you put into your FSA is done so on a pre-tax basis. This means you are lowering your taxable income and also not paying taxes when the money is used for qualified expenses.

Health Care FSA - You may contribute up to \$1,000 per plan year to pay for qualified medical, dental and vision expenses for yourself and eligible family members. Funds in this account can be used to cover all eligible expenses on your tax dependents even if they are not enrolled under your health care plan. Eligible reimbursable expenses include medical and dental plan deductibles and copays (if applicable), orthodontia expenses not covered by your dental plan, prescription drugs, prescription eye glasses and contact lenses, Lasik eye surgery and much more.

Limited Purpose FSA - If you enroll in the HDHP/HSA plan and open a health savings account, you are not able to enroll in the Health Care FSA, since you're already putting tax-free dollars aside to pay for qualified expenses. You are, however, able to enroll in the Limited Purpose FSA, which allows you to pay for eligible out-of-pocket dental and vision expenses.

Health Care FSAs and Limited Purpose FSAs have a use-it-or-lose-it provision, so be conservative when electing how much to contribute. Up to \$570 can be rolled over into the next plan year. Employees have until March 31st of the following year to submit any claims.

Dependent Care FSA - You may contribute up to \$5,000 per plan year to pay for qualified eligible dependent care expenses. Funds in this account are saved on a tax-free basis.

Dependent care FSAs have a use-it-or-lose-it provision. No funds can be rolled over. Employees have until March 31st of the following year to submit any claims.

Tips to Save Money

Preventive/Wellness Exams Covered at 100%

- Preventive care is equal to one physical exam per year per enrolled member
- Females get an annual well-woman exam covered at 100% in addition to their annual physical exam
- No out-of-pocket costs apply - these exams are fully covered as long as your physician codes them as preventive

Prescription Drugs

- Ask your doctor if there's a generic version of any medication you're currently taking or being prescribed
- Take advantage of the Prescription Savings Programs at major retailers
- Ask about free samples from your doctor and/or manufacturer rebates

High Cost Scans, X-Rays & Tests

- MRI, PET scans, CT scans, etc. are nearly 2/3 less costly at free-standing, in-network imaging centers than at hospitals
- Whenever possible, compare cost options prior to scheduling your necessary services

Accessing Medical Care

The ER is a costly experience for issues that aren't true emergencies. There are alternatives that can offer quick care at a much more affordable cost. The key is finding these alternatives today when you're happy and healthy.

- Doctor's office: for symptoms that aren't life threatening, call and let them know your symptoms require immediate attention
- Convenient Care Clinics: use when you don't have a primary doctor or can't get an appointment. Good for fever, sore throat/strep, coughs/congestion, sports physicals, UTIs, etc. Visit cvs.com or walgreens.com to find a clinic near you*
- Urgent Care (UC): less costly than the ER; can treat sprains/strains, minor breaks, mild asthma, minor infections, rashes, small cuts, burns, etc.

* If enrolled in a BCBS medical plan, before filling any prescription at CVS, please refer to <https://www.myprime.com/content/myprime-v2/en/sso-consent.html> or contact BlueCross BlueShield to find out if your prescription drug(s) are covered in-network.
