VISION & MISSION | OUR WHY

Noble will ensure that all students have equitable and positive school experiences that equip them to complete college and lead choice-filled lives.

THEORY OF CHANGE

CORE VALUES | OUR HOW

How We Work with our Colleagues, Students, Families, and Community Partners

The order of our values is alphabetical and not indicative of importance, chronology, or priority. They must all live constantly and continuously.

DIVERSITY, EQUITY AND INCLUSION

We believe staff at all levels of the organization should reflect our students and communities. We build diverse teams because they perform better—getting the best results for our students—and create spaces for people of all intersectional identities to feel included, valued, and affirmed. We share our ideas and input, and we seek diverse voices and bring in traditionally excluded individuals and perspectives to arrive at the best decisions. We actively seek understanding to avoid assumptions and mitigate bias. We examine ourselves to ensure our practices and beliefs lead to equitable outcomes for all.

Indicators
- Creates spaces for people of all intersectional identities to feel included, valued, and affirmed
- Shares their ideas, input, and perspectives
- Seeks diverse voices and brings in traditionally excluded individuals and perspectives to arrive at the best decisions
- Actively seeks understanding to avoid assumptions and mitigate bias
**FOLLOW-THROUGH**

We believe that one of the most important ways to build trust is by honoring our commitments with our actions so we fulfill responsibilities and do what we say we will do by the agreed upon time. We communicate clearly and as far in advance as possible, because our time and the time of others is valuable. By doing what we say we will do, we collectively advance our organizational vision, do our best work, and allow our staff, students and families to flourish. We commit to excellence and own mistakes when we make them.

**Indicators**
- Fulfills responsibilities and does what they say they will do by the agreed upon time
- Communicates clearly and in advance
- Commits to excellence
- Owns mistakes

**HUMILITY AND SELF-AWARENESS**

We believe when we have a better understanding of ourselves, we can then build on our strengths and exhibit vulnerability toward opportunities for growth. This requires critical self-reflection that promotes ownership, culturally responsive and sustaining practices, and continuous learning both individually and collectively. We seek, accept, and apply feedback from our colleagues, students, and families to help affirm our contributions and support our evolution. We know we accomplish more together so we recognize the perception and the impact of our actions and words on people.

**Indicators**
- Builds upon their strengths and exhibits vulnerability toward opportunities for growth
- Seeks, accepts, and applies feedback from people
- Recognizes the perception and impact of their actions and words on people

**RESPECT**

We believe in the inherent humanity of all who make up our community so we honor their dignity and affirm their lived experiences and traditions. We make people feel seen, appreciated and valued. We build trust by collaborating positively, directly, and with candor. We give feedback to make one another better.

**Indicators**
- Honors the dignity of and supports people (colleagues, students, families, community partners, and external stakeholders)
- Makes people feel seen, appreciated, and valued
- Collaborates positively, directly, and with candor
- Gives feedback to make one another better

**RESULTS**

We believe in the brilliance of all our people—especially Black and Brown students, alumni, staff and families—so we set and achieve ambitious goals and assume personal responsibility for results. We regularly ground our performance and decision-making in qualitative and quantitative data, because that information helps us eliminate the barriers that get in the way of driving equity in outcomes.

**Indicators**
- Sets and achieves ambitious goals
- Assumes personal responsibility for results
- Grounds performance and decision-making in qualitative and quantitative data
- Drives equity in outcomes
We commit to equity in experiences and outcomes, eliminating the predictability of success or failure based on race, gender, ability, class, sexual orientation or any other identity marker.
